

WHAT'S HAPPENING!

March 26, 2018

Operations Building

Team,

With the planned additions in staff to the Regina team and the hiring of Summer Students, it has been identified that additional lockers are required. It has also been identified that additional storage is needed for clothing.

To address this, a section of the 2nd floor of the Operations Building will be converted into locker space and an area on the main floor will be converted into clothing storage.

Human Resources offices have been relocated to the 3rd Floor.

Employees affected by the changes and construction will be individually contacted.

Construction will begin immediately.

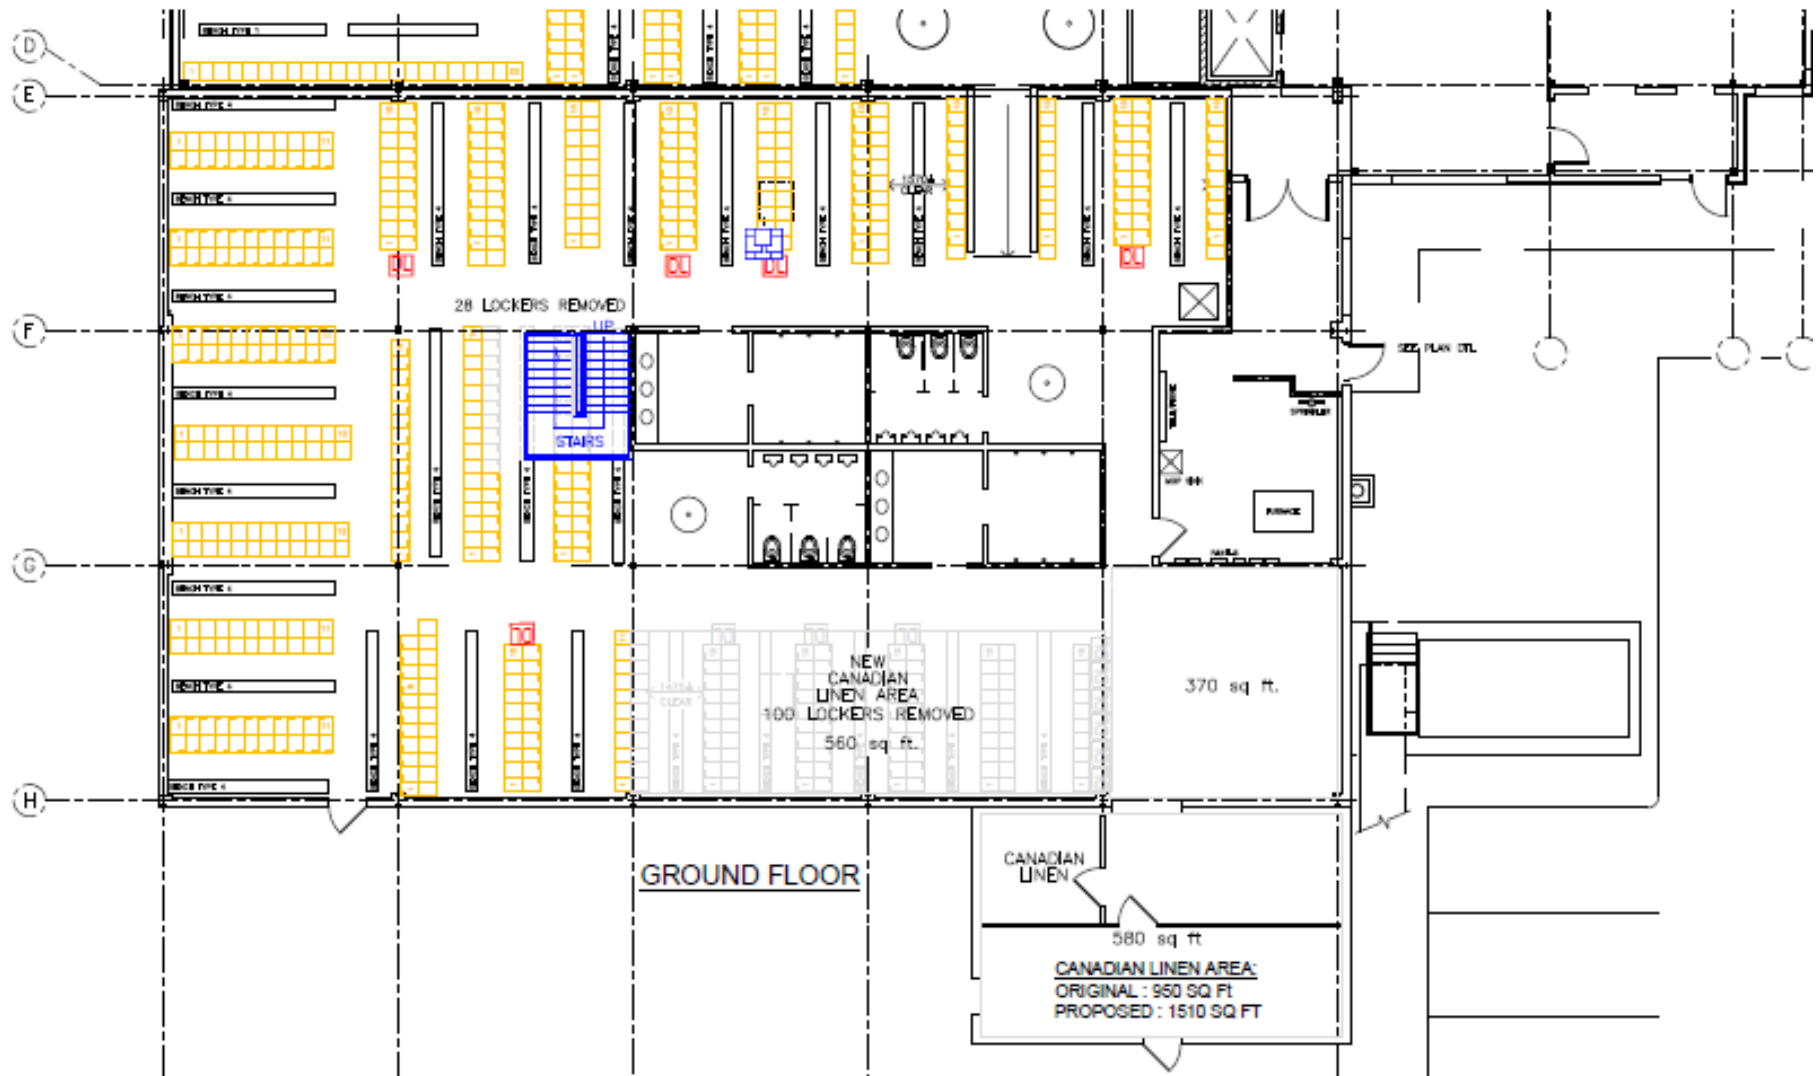

Thank you in advance for your patience and cooperation through these changes.

Brad Forster
Vice President & General Manager
Regina Steel

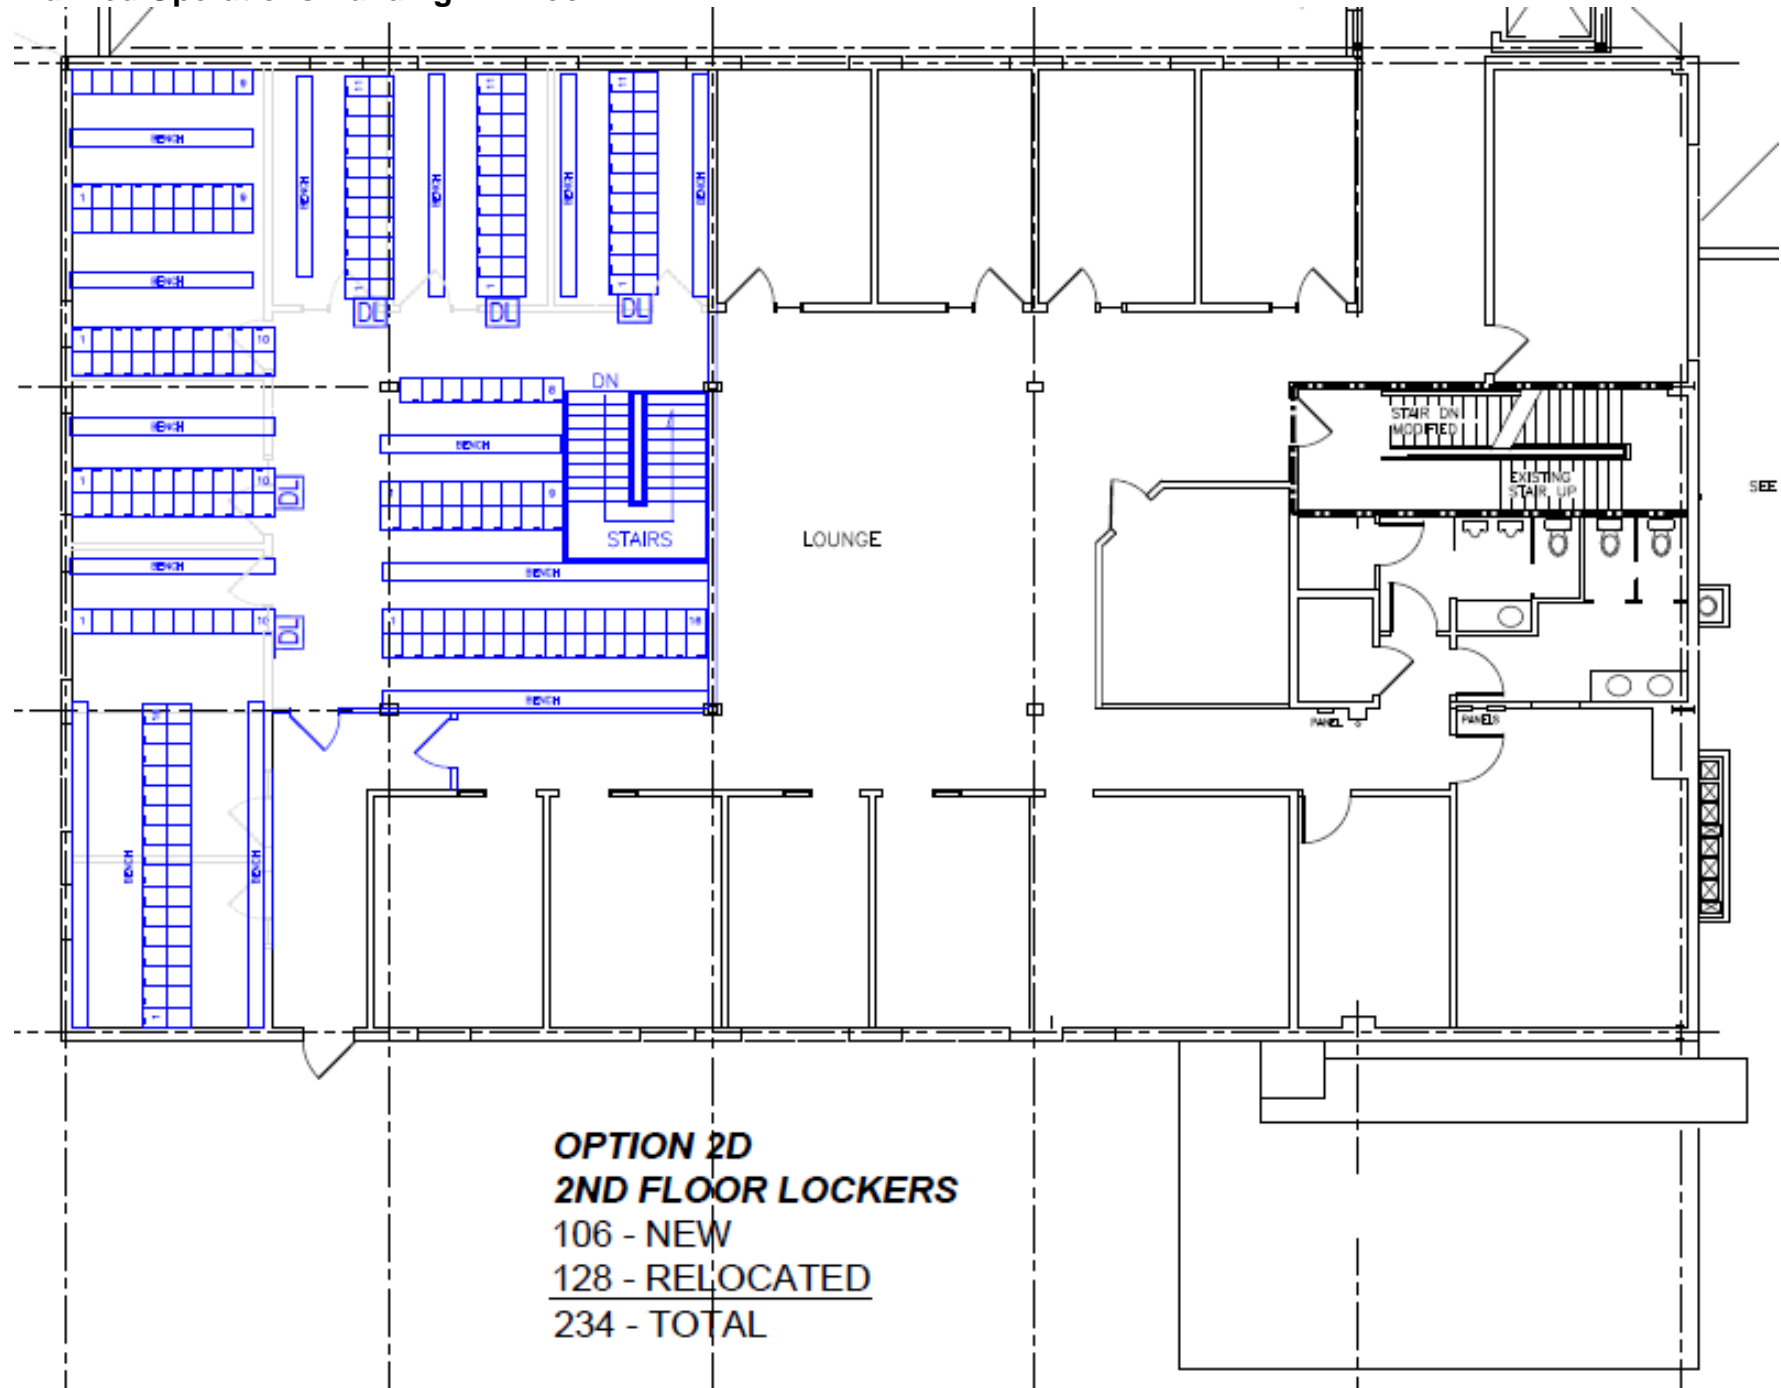

Scott Manson
Director Operations
Regina Tubular
