

## Communication Action Team

In a continuing effort to prepare for bargaining next year your local union is re-implementing a well established and proven method of communication to the membership. A "Communication Action Team" CAT

The CAT structure can be used for a variety of things and will be . However its greatest use will be during bargaining.

Firstly, CAT is meant to be a timely, efficient, and accurate source of information to the membership from your bargaining committee.

Secondly , it provides information to the bargaining committee of what's happening at the plant while they are away , and relevant concerns of the membership . Lastly , in times of need the CAT can pass on to the membership special needs/actions

CAT helps build solidarity when we most need it . An informed membership is a powerful membership. If you know what's going on you cant be fooled. With that , our chances of negotiating a better contract for you is greatly enhanced.

Do you want to get involved? Everyone is welcome to contribute in their own way. Specifically, we will be looking for additional members to participated as CAT members. If so interested please contact any of the Team Leaders Chad Switzer (Steel), Garret Rosko (Pipe) or Dana Faul (O&T)
